Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University **July 2023 – Present**
B.Tech in Computer Engineering (Major: Artificial Intelligence), CGPA: 7.8/10 *Navi Mumbai, India*

P.P. Savani Chaitanya Vidya Sankul **June 2022 – March 2023**
12th Grade, Percentage: 54.4% *Surat, Guj*

St. Mary's English High School **June 2020 – May 2021**
10th Grade, Percentage: 63.5% *Valsad, Guj*

Projects

Lung Cancer Detection | *Python, Machine Learning, Data Science* **April 2025**

- Designed and implemented a machine learning pipeline for early-stage lung cancer detection using clinical and imaging features
- Performed data pre-processing, feature engineering, and class imbalance handling to improve model robustness
- Trained and evaluated multiple classifiers (Logistic Regression, SVM, Random Forest), achieving improved diagnostic accuracy
- Analyzed performance using accuracy, precision, recall, F1-score, and ROC-AUC metrics.

GPT-Based Language Model Using NLP | *Python, PyTorch, NLP, Transformers* **December 2024**

- Built a GPT-style neural language model for text generation using transformer-based architecture.
- Trained the model on large-scale textual data to learn contextual word representations and language structure.
- Implemented tokenization, embeddings, self-attention, and autoregressive text generation from scratch.

Bank Management System (Mini Project) | *Java, OOP, JDBC* **May 2024**

- Developed a console-based bank management system implementing core banking operations.
- Implemented features including account creation, deposits, withdrawals, balance inquiry, and transaction history.
- Applied object-oriented principles such as encapsulation, inheritance, and exception handling.

Technical Skills

Languages: Python, Java, C,
Frameworks:TensorFlow,Numpy,Pandas,Scikit-learn,Matplotlib
Tools: Jupyter Lab, SQL
Technologies: Deep Learning, AI, Machine Learning,Data Science,NLP

Extracurricular & Certifications

Business Marketing – Technology Focus **Aug–Oct 2025**
NPTEL (8-week course)

- Completed an 8-week NPTEL-certified course covering technology-driven marketing strategies; scored 81/100 with full marks in assignments.

Guided Project: Create Engaging Reports using Jupyter Book **April 2025**
IBM (edX)

- Built structured, interactive technical reports using Jupyter Book; focused on documentation, reproducibility, and data presentation.

Python Basics for Data Science **April 2025**
IBM (edX)

- Gained hands-on experience with Python fundamentals for data science, including data types, control flow, and basic data analysis.

Hobbies

Programming, Reading, Gaming
